There was no cremation after that. Dr. Perry Schurtz of Grand Rapids and the Rev. A. W. At his apartment he received District Attorney Swann and laughed long and loud over the suggestion anybody could blame him for Mr. Peck's death. Meantime he offered a bribe of \$25,000 to Kane, the undernation taker who had embalmed the body, to put arsenic into any embalming fluid submitted to the authorities as samples. Nine thousand dollars of this was paid in cash. The closeness of the detectives shadowing Waite was shown when one of them, disguised as a motorcyclist, took advantage of Waite's nervous haste to arrest him for speeding in his automobile, thereby making sure of a period during which Waite must be absent from his spartment. In the flat plenty of evidence of Waite's ownership of poisons, textbooks on poisons, germs and the like were found. Dora Hillier told of seeing Waite mix "something or other" with Mr. Peck's tea and of the old man's rejection of the concoction because it did not taste as it should.
